NUMBER 85.

PITIFUL STORY  
TOLD BY GIRL  
TO OFFICERSMissing High School Girl  
Whom Officers Had Sought  
in Vain Is Finally  
LocatedHELD PRISONER IN  
OFFICE OF A DENTISTLatter, a Married Man, Is Ar-  
rested for Adultery—  
Girl Found in Rags  
With Baba

SAN BERNARDINO, Aug. 16.—Breaking into the offices of A. W. McDavid, a dentist, last midnight, Police Chief Mesplett found, huddled in a corner, Miss Jessie McDonald, a high school girl, who has been missing for eighteen months and for whom detectives, at the behest of her father, had searched all over the state.

Wasted to a Skeleton.  
At the breast of the girl was huddled a four months old babe. The girl was a pitiful sight. Clothed almost in rags, her form wasted to a mere skeleton, she told the officers she was confined almost the entire time in a small dingy room of the dentist's office.

McDavid, a married man, was arrested on the charge of adultery. The girl was taken to the station house and pleaded nearly all night to be allowed to go back to her father. Today she broke down and sobbed out her story to District Attorney Goodale.

Wants to Go Back Home.  
She admitted she believed she was held to McDavid by some strange hypnotic influence. She told a story of terrible suffering, but in the same breath pleaded to be allowed to go back to him.

She is 21 years old. She fell in love with the dentist while a school girl, going to the office for professional work. The father of the girl seeing the drift, beat McDavid fearfully in a fist fight and it was thought he had broken the daughter's affection. Later, however, the relations were resumed and she soon disappeared.

Dark Nights Her Recreation.  
The girl said McDavid occasionally took her out dark nights riding to the outskirts. She was heavily veiled. These were the only times she was allowed to leave the room. Other times she saw the dentist's wife and family riding by. The girl's parents say the former wife of McDavid in a suit for divorce related an experience similar to Miss McDonald's.

Late tonight McDavid made a statement. He said the girl came to him and said she was ill treated at home and asked to live in the room. He permitted this. He declared she had a key and could come and go whenever she pleased.

"If she stayed in the room it was at her own volition," he said.

He will be arraigned tomorrow.

KENTUCKY DEMOCRATS  
IN STATE CONVENTION  
LOUISVILLE, Ky., Aug. 16.—Delegates to Kentucky's democratic platform convention tonight refused to accept Henry Watterson's advice, and adopted the majority report of the resolutions committee, which provided for the extension of the county unit law to all counties of the state.

Mr. Watterson moved to amend so as to leave the state's liquor laws as they stand, urging that the county unit was but a preface to prohibition. The motion was voted down, 497 to 514.

The platform committee of the democratic congress and the state's democratic representatives and condemn everything reported. The resolutions contain no endorsement of any national candidate but declare for popular election of United States senators, the direct primary, and for good roads.

COATLESS CONGREGATION  
FOR MEMPHIS CHURCH.  
MEMPHIS, Aug. 16.—Coatless congregations will be welcomed at the Cumberland Presbyterian church here during the warm weather, according to an announcement made today by the Rev. W. J. King, the pastor.

The church is one of the oldest in the south, and although Jefferson Davis, president of the Confederacy, and other distinguished southerners took the view that no gentleman would enter the presence of ladies without a coat, Dr. King takes the view that "times have changed" with the present hot wave.

FRANTIC FIGHT TO SAVE  
LIVES OF INVALIDS  
BANNING, Cal., Aug. 16.—Cut off from all escape from the flames of a roaring mountain fire the invalid patients of a Palm Springs resort seemed doomed when Forester Decker with a his revolver compelled many Mexicans to aid him in fighting back the fire, repelling the patients.

All were saved, but seven of the Mexicans impressed by Decker have not reported and may be lost. The fire for a time threatened much valuable timber, but is now under control.

ATWOOD RESTS  
AT TOLEDO, O.Makes Record Flight from Elkhart, Ind., to Ohio City,  
Beating Time of  
TrainsTRIES A PASSENGER,  
WHO IS THROWN OUTMan Given a Ride Is Brushed  
Out When Ship Switches  
Treetops—Is Not  
Hurt

TOLEDO, Aug. 16.—Exactly 520 miles from the starting point Harry N. Atwood, who is attempting to break the long distance record by flying from St. Louis to Boston, alighted at Toledo at 4:02 this afternoon, after a spectacular flight 2,960 feet above the city.

He covered the 133 miles from Elkhart, Ind., to Toledo, with one stop, in two hours and 36 minutes actual flying time. He was compelled to stop at Pettisville, Ohio, for gasoline.

Between some stations Atwood beat the time of trains. While attempting to rise after his stop at Pettisville, with Leo Stevens of New York as a passenger the wings of the seaplane brushed the tree tops and Stevens was thrown out, but was not hurt. The passenger carrying attempt was abandoned, however.

Atwood is now 745 miles from New York. He expects to start his flight eastward early in the morning.

Atwood Gets \$500  
CHICAGO, Aug. 16.—There was much vehemence of language and gesticulation at the aviation grounds yesterday just before Harry N. Atwood started on the second stage of his St. Louis-New York flight.

The dispute was between Atwood and Chairman Mudd of the aviation committee and it terminated only with the thrusting of a certified check for \$500 into the aviator's hands just as his big biplane was starting.

The trouble started when somebody with a badge, but unidentified, told Atwood that he must leave the grounds by 3:30 or he would not be allowed to start at all. Atwood responded with heat that he would start when he pleased or some one would get hurt.

The matter was scarcely adjusted when the air pilot was tendered a check for \$500 as a gift because he landed here.

Promised \$1,000  
"I landed here to please the crowd, but I was promised \$1,000 for doing it," the birdman cried, "and I want it."

Loud language over this point continued as the aeroplane was brought to the starting line. The check for \$500 was thrust into his hands, and rejected, because still uncertified. The propellers were whirling, and half a dozen men were required to restrain the machine while Chairman Mudd did a quick job of certification. The "deckhands" released their hold, and at 3:29 the long distance aviator arose.

SEVERE WIND STORM DOES  
DAMAGE AT WINKELMAN  
PHOENIX, Aug. 16.—A windstorm at 6 o'clock this evening demolished the commercial hotel and several other buildings in the town of Winkelman, the eastern terminus of the Arizona Eastern railroad, 100 miles from here.

One woman was hurt. Whether others were injured or a number of buildings were demolished is not yet known.

Hayden, a few miles east of Winkelman, reports some damage. A Phoenix firm has received a request for 45 tents for the shelterless.

OLYMPIC CLIPS 46  
MINUTES FROM RECORD.

NEW YORK, Aug. 16.—The sea giant Olympic docked today, bringing a new record to this port, having clipped 46 minutes from her best previous record, making the trip from Queenswharf in five days, twelve hours and twenty minutes.

13 TRUST MEN GIVEN  
THREE MONTHS IN JAIL

NEW YORK, Aug. 16.—Thirteen members of the New York Live Poultry Commission Merchants' association were sentenced to three months' imprisonment and fined \$500 each today for conspiracy in restraint of trade.

The members of the poultry trust were found guilty after a trial of 51 days. Execution was deferred until Monday to allow time for appeal.

CASEY CONFESSES AS  
HE MOUNTS GALLOWS.

CARSON CITY, Aug. 16.—Patrick C. Casey was executed here today for the murder of Mrs. Lucy Heslip of Goldfield two years ago. In a brief statement on the gallows Casey said he was about to pay the penalty of an atrocious crime, for which he believed he had been forgiven.

His heart ceased to beat two minutes after the trap was sprung.

CLYVELAND, O., Aug. 16.—The Cleveland Americans tonight gave Denton P. (Cy) Young, the veteran pitcher and "grand old man of baseball," his unconditional release.

STATEHOOD IS LIKELY AT PRESENT  
SESSION; RECALL NOW IMPOSSIBLEIf Arizona Gets In at All She Will Have to Come In Under Provision Which  
Will Automatically Amend Her Constitution So As To Bar Recall of  
Judges—Otherwise New Mexico Will Come Into The Union First

WASHINGTON, Aug. 16.—Statehood for Arizona and New Mexico now hinges on the success tomorrow of the proposed attempt of the senate and house committees to frame jointly a compromise resolution approving their constitutions.

New Mexico was become a state at the end of this session unless congress meanwhile disapproves its constitution. The president has already approved New Mexico's constitution, but has disapproved that of Arizona. If a new resolution to supplant the one vetoed by the president should become a law at this session, both Arizona and New Mexico will be admitted to the union at once.

New Mexico's Advantage.  
"The only advantage New Mexico can possibly get under the proposed resolution," said Chairman Smith of the senate committee on territories tonight, "is the prompt approval by the present congress of the constitution and immediate admission. Instead of admission at the end of the next regular session of congress."

Committee Confer.  
The situation has been followed closely by the democrats and republicans because of differing political conditions in the two territories. The sub-committees of the house and senate committees on territories held a conference today, but little progress was made. Tomorrow the senate committee will meet at 10 in the morning to agree on a program and at 11 o'clock it will receive the house sub-

committee, headed by Chairman Flood. A conference was today held on the assumption that the proposed resolution would provide for the elimination of the judiciary recall from Arizona's constitution, thus making it acceptable to the president. Differences arose as to how the resolution should be worded on this point, and in regard to proposed amendments of New Mexico's constitution relating to the manner of amending that instrument.

New Mexico a Bugaboo.  
The most serious difference of the two committees are said to be in regard to the constitution of New Mexico. The wording of the resolution as proposed by Senator Nelson, is declared by the house committee, does not fully meet the criticism that the constitution is too difficult of amendment. Nelson is said to have replied nothing further in this connection than that it would be agreed to by the senate this time.

"There is some change in the agreement, but not much," said Chairman Flood after the conference.

Senate Optimistic.  
Chairman Smith of the senate committee was more optimistic. "There is strong likelihood that the house and senate may agree on a joint resolution admitting Arizona and New Mexico," said Smith. "The issue raised by the president's veto, so far as Arizona is concerned, will probably be met by a constitutional amendment that the recall cannot apply to judicial officials."

Hard to Amend.  
"The constitution of New Mexico was criticized by some members of the house and the senate because it was difficult of amendment. Both committees are now considering the question of resubmitting to the voters of New Mexico a constitutional amendment to change the constitution in this respect."

While hundreds of messages were received at the white house today praising the president for his veto message aimed at the recall of judges in the Arizona constitution, there was one that was most unexpected. It was a telegram from half a dozen citizens of New Mexico.

The Telegram.  
"A majority of the republican party, as well as a majority of the people of this territory, wish to extend you hearty congratulations on your message vetoing the Flood resolution. We prefer delay another year if necessary rather than endorse the recall of the judiciary of Arizona," it read. It was sent by prominent republicans who helped to frame New Mexico's constitution.

In reply the president sent the following:  
"Thank you very much for your kind telegram of August 15. The spirit with which you bear disappointment in delayed statehood reassures me and strengthens my conviction with respect to the performance of an unpleasant duty."

AVIATORS IN  
GREAT DANGERStone Plunges Into Lake Michigan and Gill Is Entangled  
in His Wrecked  
Machine

BOTH MEN ARE RESCUED

CHICAGO, Aug. 16.—Arthur Stone was snatched from death at the international aviation meet today after all hope of his life had been given up: Howard Gill came almost as close to death, but escaped after the wreck of his machine. Lincoln Beachey, arising 3,000 feet in the air, had his engine go "dead" and glided to earth safely in front of the judge's stand.

Stone's machine fell in the lake just at dusk. He leaped into the water and was rescued by a motor boat just as he was exhausted after being in the water nearly an hour. His machine went to the bottom.

Wife Saves Life.

That Stone was not drowned was due to the efforts of his wife. In spite of the order that all aviators wear life preservers, Stone started without one. Just as the machine was rising his wife rushed up and tied an inflated inner tube to his back, around his shoulders.

Hesitate to Fly.  
Many flyers, unnerved by the deaths of yesterday, protested that it was not safe to rise today in the face of the strong wind. The judges, however, were insistent, and finally half a dozen rose and started to cross the water and race around the intake of the bridge tower and a half miles out in the lake.

Stone fell in the second lap. Gill, of the Wright team, furnished the first thrill of the day when his machine suddenly checked as it skimmed over the ground after landing, and toppled over with terrific force. Gill was entangled in the wreckage, but later crawled out unhurt.

Spectacular Landing.  
Beachey's landing was most spectacular. Coming down with so steep a slant that it seemed he must lose control and topple over, he nevertheless landed without a jar in front of the judges' stand. When the engine went "dead" he was more than 3,000 feet in the air.

Beachey was the easy winner of the nine mile race around the pylons, finishing in nine minutes and 28.25 seconds. Beachey also made the day's altitude record, unofficial, reaching 2,076 feet.

Thomas Sopwith won the cross-water race of 14 miles. His time was 17 minutes and 2 seconds.

CY YOUNG RELEASED

CLEVELAND, O., Aug. 16.—The Cleveland Americans tonight gave Denton P. (Cy) Young, the veteran pitcher and "grand old man of baseball," his unconditional release.

TROOPS ORDERED TO  
GUARD THE BORDERThreatening Aspect of Lower  
California Situation Prompts  
Order from Knox

WASHINGTON, Aug. 16.—The patrol of the Lower California frontier, established a short time ago, was re-established today by the war department because of the threatening situation there. A company of coast artillery of California has been ordered to patrol the line from Yuma, Ariz., to San Diego.

Mexican rurales are now proceeding to the territory to suppress the trouble, traveling through the United States, and it is feared some of the revolutionists may try to enter American country to get away from the Mexican soldiers. For this reason Secretary of State Knox asked the war department for protection.

Troops Receive Orders.

SAN FRANCISCO, Aug. 16.—Gen. Bliss, commanding the department of California, this afternoon detached the 15th coast artillery from Fort Rosecrans, San Diego, and ordered them to do duty on the boundary line of Lower California. The troops will camp at Tia Juana after a march of sixty miles.

DOVES AND HORSES  
POISONED BY WHEAT.

BAKERSFIELD, Cal., Aug. 16.—It became known today that thousands of doves have been poisoned by wheat left out to kill squirrels in the crusade to stamp out the cause of bubonic infection by state health authorities. Several horses were also killed.

EARTHQUAKE RECORDED  
1375 MILES DISTANT.

SAN JOSE, Aug. 16.—Father Richard, in charge of the observatory at Santa Clara college, reported tonight that a long distance earthquake was registered from 3 to 5 p. m. of small amplitude. The distance measured 1375 miles east.

PENNSYLVANIA DEMOCRATS.

HARRISBURG, Pa., Aug. 16.—The members of the Democratic State Central Committee assembled here today for a meeting, the purposes of which are to consider proposed changes in the party rules, to be recommended to the next state convention for its approval, and to carry out plans for the redistricting of the state, so as to abolish the nine districts now existing and to establish 32 divisions, one for each congressional district.

SPECTACULAR FIRE IN  
PITTSBURG; 12 HURT.

PITTSBURG, Aug. 16.—A spectacular fire in the business section of the city last night caused by the explosion of ammonia tanks called out all the fire apparatus of the city and for a time the blaze was most threatening. It was finally subdued after doing damage estimated at \$50,000. Twelve persons were hurt by flying debris.

FLOODS IN CHINA.

SHANGHAI, Aug. 16.—Floods in the province of Anhui have destroyed 25,000 acres of rice. A half million persons are homeless.

BIGGEST CASH  
MINE PAYMENTLive Oak Development Com-  
pany Pays Down \$400,-  
000 in Cash for Live  
Oak PropertiesTRANSACTION MADE  
AT GLOBE YESTERDAYRemarkable Showing of Prop-  
erty Made It Easy for Com-  
pany to Get Cash in  
Advance

GLOBE, Ariz., Aug. 16.—The payment of undoubtedly the largest cash payment ever made in a single lump for a mining property was made in this district today when the Live Oak Development company paid \$400,000 to the Live Oak Mining company for the Live Oak mine near Miami.

Half Million Total Cost  
The property consists of eleven mining claims and has been under development work for two years by the purchasing company. This, the final settlement, makes the total \$500,000 paid for the claims.

Most remarkable is the fact that the payment of today was made 18 months in advance of the time due. The option calls for final settlement December 3, 1912. The management states that the money was readily procured in advance on account of the remarkable showing made by the development company. It is estimated that 15,000,000 tons were shown on the claims.

ONE ARREST MADE IN  
PENNSYLVANIA LYNCHING

COATESVILLE, Pa., Aug. 16.—The first arrest in connection with the burning of Zack Walker on Sunday night was made here tonight when Kennedy Boyd, a lineaman in the employ of the Chester Valley Electric company, was taken into custody.

Boyd, under severe cross-examination, it is alleged, admitted enough to warrant his arrest. It is said that he gave the names of a number of others who will also be taken into custody.

The coroner's jury which has been investigating the lynching of Walker returned its verdict tonight. Not a name is mentioned by the jurors.

WILL MAKE ATTACK  
ON WHITE SLAVE TRAFFIC.

MILWAUKEE, Aug. 16.—An attack on the white slave traffic has been planned by the woman's committee of the National Socialist party. At a meeting today the committee made plans for a campaign that will extend all over the United States.

Arrangements were made at the committee meeting for the circulation of a petition through the Socialist ranks asking for the pardon of Angelino Neopolitano, the Canadian woman serving a life sentence for the murder of her husband.

BABY BRIDE QUITS

KANSAS CITY, Mo., Aug. 16.—Pearl Harris, the 11-year-old wife, who ran away from her 42-year-old husband at Smithville and came to Kansas City, has been made a ward of the juvenile court so she cannot be taken back by her husband. She will be kept at the home for girls until a home can be found for her. In the meantime she will see to have the marriage annulled.

She was married to Harris, a widower with 10 children, several of them older than Pearl, in February. She said she did all the housework and that Miller treated her well, but she did not like married life.

BROTHER AND SISTER SUE.

WORCESTER, Mass., Aug. 16.—Frank Mitchell and Miss Dora Edmonds of Northbridge, Mass., brother and sister, today began suit for \$15,000 and \$10,000, respectively, against the Central Vermont railroad for injuries alleged to have been received in the train wreck at Randolph, Vt., on June 29, when several persons were killed.

BENNINGTON ANNIVERSARY

MONTPELIER, Vt., Aug. 16.—The 134th anniversary of the battle of Bennington, in which the New Hampshire militia under General Stark defeated the British and which historians regard as the turning point in the Revolutionary war, was observed as a legal holiday throughout Vermont today as usual.

SON BORN TO MAN  
SENTENCED TO PEN.

NEW YORK, Aug. 16.—Announcement was made today of the birth of a son to Mr. and Mrs. Christopher Columbus Wilson. Wilson was convicted of being the head of the United Wireless and is fighting to escape a three years' sentence to the Atlanta penitentiary.

Wilson is 73 and his wife is 19. She was formerly his stenographer and married him last August, a few minutes after the announcement of Wilson's indictment. This she did not have to testify against him.

PIONEER DIES

PHOENIX, Aug. 16.—Hosea G. Greenshaw, a pioneer of the Salt River valley since 1868, before Phoenix was platted, died this evening after a long illness.

FLOODS IN CHINA.

SHANGHAI, Aug. 16.—Floods in the province of Anhui have destroyed 25,000 acres of rice. A half million persons are homeless.

BIG GENERAL  
STRIKE FACES  
BRITISH ISLESAnarchy Reigns in Places and  
Troops Are Given Or-  
ders to Shoot  
to KillRAILROADS WILL BE  
OPERATED BY MILITARYFood Supplies Will Be Trans-  
ported at All Cost—Call  
for General Strike  
Today

LONDON, Aug. 16.—Meetings to attempt a settlement of the troubles with the railroads and workers were held tonight, but at adjournment the situation remained unchanged. The managers declared they had been promised protection for the trains and would not yield to the men. The union leaders, on the other hand, declared a general strike would occur tomorrow morning.

Military Is Ready  
The military authorities are taking every precaution to secure the operation of trains when the strike is called. Every soldier at the Alder shot garrison is under orders to move at a moment's notice. It is estimated that 25,000 men will be moved from Aldershot in a few hours.

All are now armed with rifles and ball cartridges. Similar precautions were taken at all military stations of Great Britain.

General Strike Today  
Though the government was energetic in its efforts today to avert trouble, it now seems certain that a general railway strike will be called at 8 o'clock tomorrow morning. In the house of commons this afternoon Winston Spencer Churchill, the home secretary, declared the non-union men were entitled to work without molestation, and would be protected in that right.

David Lloyd George, chancellor of the exchequer, declared the government would protect the railways and food supplies at all costs.

Rioting at Liverpool.

LIVERPOOL, Aug. 16.—Rioters again assembled tonight in the Scotland Road district of the city. Police and soldiers were called and charged with their batons. The presence of the troops overawed the rioters, who dispersed.

The union leaders tonight issued an order calling out all street car employees.

"Shoot to Kill."  
Tonight the troops are bivouacked in the streets. Orders now are not to fire over heads, but to pick out the ring leaders and shoot to kill. Today coal and provisions were brought to the city by military escort. In many other towns business is completely suspended by the strikes.

Some trains out of Birmingham are cancelled, but as all workers are not unionized, a complete tie-up is not anticipated.

At Leeds tonight the railroad men agreed to quit tomorrow morning if the managers fail to comply with demands. At Manchester supplies are running short.

Many suburbaners are compelled to stay in town, as the trains are cancelled. At Swansea and Sheffield disorders broke out and the police were compelled to use their batons.

UNIFORM BARRED AND  
TROUBLE IS RESULT.

DETROIT, Aug. 16.—Captain J. C. Cantwell of the revenue cutter Morrill, has made formal complaint to the local federal officers against the Detroit & Windsor Ferry company, because two sailors from the revenue cutter were not allowed to board the steamboat Columbia on a moonlight excursion recently.

The two men were in regulation summer uniform, but the officers of the company say they did not consider the sailors' dress was such as to allow the men to mingle with the excursionists.

HARVESTER COMPANY

WIL BE INVESTIGATED.  
WASHINGTON, Aug. 16.—Another comprehensive congressional investigation, this time into the affairs of the International Harvester company, will be under way in the next regular session of congress if a resolution introduced yesterday by Representative Foster of Illinois is adopted by the house.

Mr. Foster suggests an investigation by a committee of nine members of the house, to be elected in the same way as the committees of inquiry into the so-called steel and sugar trusts.

The Foster resolution was referred to the rules committee. It contemplates a determination as to whether the Harvester company has violated the Sherman anti-trust law, either by the relation of the company to its subsidiaries, or otherwise.

DEPLORE LYNCHINGS.

DENVER, Aug. 16.—The National Negro Educational association today adopted resolutions deploring the recent lynchings of negroes in Pennsylvania and Oklahoma.
